

# GLASS SPIGOTS

A photograph of a modern glass and white-framed extension on a brick house. The extension features a wooden deck and is decorated with colorful bunting. The glass walls provide a view into the interior, which includes a dining area and a kitchen. The extension is built against a brick wall, and the overall design is contemporary and stylish.

# EAZYSPIGOT 0.74kN GLASS BALUSTRADE SYSTEM

### FAST AND EASY TO INSTALL AND ADJUST

One of the most simple balustrade systems to fit and adjust thanks to its patented screw-clamp technology. Dry glazed where no specialist tools are required. Glass can easily be removed and replaced if required.

### ACCREDITED TO 0.74kN TO BS 6180:2011

EazySpigot is accredited and approved by multiple organisations to verify that it meets national and international building regulations for use as edge protection, where up to 0.74kN force loading is required.

### SMALL AND COMPACT SYSTEM

The EazySpigot balustrade system can be packed into boxes making it simple and cost-effective to store and handle on site. On a large installation this can save a great deal of time.

### HARD WEARING

EazySpigot has been precision engineered to provide incredible strength for a lightweight and compact balustrade system. For additional protection from the elements EazySpigots are anodised to 20 microns.

### HIGHLY ADJUSTABLE

EazySpigot benefits from two-sided screwclamp technology that provides a 2° adjustment angle on either side of the glass, enabling perfect alignment of each glass panel even when being installed onto an uneven surface.

EasySpigot .74kN

Article	Glass
EasySpigot 12	12
