

100% RECYCLED PLASTIC PRODUCTS.

SUBFRAMES, FENCING & GROUND REINFORCEMENT

**BARCLAY &
MATHIESON**

BMARCHITECTURAL

A smart choice for users and the environment.

This innovative range of products is manufactured from 100% recycled plastic, saved from landfill, and in most cases provides a lighter, more sustainable and maintenance-free alternative to timber and other traditional materials. Recycled plastic products are ideal for a wide range of applications, especially where direct contact with the ground is a requirement, such as supporting structures for decking and access walkways, fencing or soil reinforcement. They are suitable for virtually all industrial sectors, including residential, commercial, rail and environmental management.

ECO-FRIENDLY

Reduces strain on landfill, sustainable and environmentally-friendly

DURABLE

Weather & rot-resistant for year round use and provided with 20 year warranty

MAINTENANCE-FREE

Long service life and resistant to oils, brines, acids and salt water

LIGHT-IN-WEIGHT

Approximately 1/3 the weight of concrete

SHATTERPROOF

Splinter-free, non-toxic and carries low risk of injuries

EASE OF USE

Easy to cut and screw using conventional tools and fixings

BM ARCHITECTURAL

From homes to workplaces, BM Architectural helps create inspiring and safe spaces where people thrive. Our expertise areas include **glass balustrade and steel glazing systems**, as well as **cladding, decking and recycled plastic products** which together help transform outdoor spaces. We supply building and renovation projects, large and small.

BARCLAY & MATHIESON

A specialist supplier of safety walkways and access structures, Barclay & Mathieson helps reduce the risk of slips, trips and falls across construction, rail and other safety-critical industrial sectors. We supply a comprehensive range of GRP, steel and recycled plastic products, including **flooring, stair treads, substructures and handrail systems**.
